Charles Ondine, Attorney at Law
U.S. EPA, Region 10
1200 Sixth Avenue, ECL-111
Seattle, WA 98101

Re: 7200 2nd Ave. S., Seattle

Dear Mr. Ondine:

Enclosed herewith are copies of three letters I sent to Ms. Hong regarding the above-referenced property. They are self-explanatory.

Ms. Hong is not an attorney and does not seem to grasp the constitutional and legal concepts that I have researched. She does not know that 40 CHF Ch. 1 (7-1-06), Section 300, No. 312.1 provides a remedy whereby the innocent party can hire an Environmental Specialist to confirm that the pollution is not emanating from his/her property. As you can see, she has told me I cannot do that. I would appreciate it if you would instruct her in the consequences of denying a person his/her constitutional rights.

Furthermore, I have read all of the references provided to me by Ms. Hong and I cannot find the sweeping authorization that EPA is claiming.

I trust you will read the two U.S. Supreme Court cases I cited and I can furnish more cases if you request it. You, certainly, realize that EPA cannot dismiss the U.S. Constitution, the U.S. Supreme Court, and the Code of Federal Regulations.

Looking forward to your reply, I remain

Very truly yours,

M. C. Halvorsen
